

By means of the license agreement on the assignment of the right of use of trademarks enterprise _ _ _ _ _ offers legal entities and individuals to use as Licensees trademarks GRABOVOI® and GRIGORI GRABOVOI®. The aim of use of the signs is the eternal development of each concrete man and humanity as a whole; therefore the technologies, which will be distributed under **class 16**, are ideologically oriented to realization of the eternal development.

With the assignment of the right of use of trademarks the Licensee is provided with training course on the Teachings of Grigori Grabovoi that enables the Licensee to conduct his activity on the basis of technologies of the eternal development. Individual technologies for the Licensee can be created after signing of amendments to the license agreements.

The rights of the use of trademarks on the following goods and the services are granted:

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office machines (except furniture); instructional and teaching material (except apparatus).

Paper. This class is related to production of paper, which is required for printing of books and for office work, where duration of storage is one of the properties of paper. Including the possibility of use of the paper through electronic computers, which can identify the characteristics of the paper and, as if through the internal bar code of paper, classify information that is on it. In other words, special functions of paper will be inserted in the very structure of paper.

Paper boxes. This case refers to different types of the paper boxes, which will be distributed in different directions where they can be used and furthermore they will have an embedded function of building of different constructions from these boxes. They will also have one more embedded function, directed toward the fact that the form of these boxes will be reproduced and built in such a way that besides usual forms specific elements related exactly to perception of production of the eternal development will be embedded.

Paper catering accessories. This relates to design and fashion of the accessories that will enable a person, who perceives them as catering paper accessories, taking into consideration that the form of the catering accessories can be changed, perceive exactly the technologies of the eternal development using the forms and colors, which will be there. For the trade marks those forms and colors, which will contribute to the eternal development of man, will be provided.

Paper Catering napkins. The same as with the catering accessories. There will be different forms, and different colorings, and different material for the person who uses them to obtain a kind of implicit or probably explicit, if series of numbers are printed there, knowledge about the eternal development.

Cardboard and cardboard goods. This relates to the production of special cardboard, which can also possess properties of remote identification of it with its external scanning devices, and the issues of utilization, of course, will be solved automatically, or in other words, further movement of this cardboard. Goods from cardboard respectively can be those, which will be directed first of all toward the eternal development and will have some knowledge. For example, the things that are related to children's creation, for, example, based on growth, within some age period of man; and further on as goods from which it is possible to make complex figures, which

facilitate such thinking that is directed toward the eternal development. For example, in the form of intellectual games, intellectual systems, which can be built, and this assembling, these goods from the cardboard will be exactly made in such a way that when people will be building them according to the structure, embedded in the trade marks, they will obtain knowledge on the eternal development and realize this development.

Printed product. This relates to books, which will contain information about the eternal development. This printed product is sure to include materials on the Teachings of Grigori Grabovoi, as well as other materials, which are directed exactly toward the eternal development.

Binding materials will be of improved quality and based on the new technologies, where for example, the very phase of binding cannot be distinguished from the material.

Photographs. This relates to the new photographs including types, in which situation related to personality will be embedded, for the person to be able to use the photograph. For example, to have a kind of diagnostic pack in term of what he should do for the eternal development, in other words, it is possible to embed a special field into the photograph, for example, in the upper right-hand corner, which will reflect behaviors which are required for the person's development; moreover, this function in the camera might be excluded and might be available.

Office stationery will also differ by the property aligned with the idea of the eternal development, small amounts, for example, of ink for pens, gel and other paints, should work much longer, or the system of constant renewal within the framework of exactly the idea of the eternal development of products. In other words exactly these special trends will be thought over; the goods will be bought from those companies, which work in this direction, for example, pens, which write longer, which are of better quality as far as permanent pens, in other words, which will work according to the external structures, for example, filling in, based on some blocks, which can be filled in, and the pens will mainly work. Right up to generation by the pen of permanent substance, for example, for writing. Referring to office stationery respectively the form will be exactly that, which contributes precisely to the eternal development. At the same time the form will be changed in line with the fashion at list once a year. As a matter of fact, the idea for office stationery is at least once a year, as for their structure, correction of forms, color and other elements of the office stationery, directed toward the eternal development, they will be corrected 4 times a year or new ideas will be introduced.

Glues for the office or everyday purposes. In this case safety of glues will be monitored separately and properties exactly directed toward the eternal development will be added, in other words gluing without splitting, for example, it is possible to introduce diffusion processes into such glues that will make it impossible, for example, to unglue the glued systems.

Materials for artists;

- This includes everything related to artists plus special cognitive elements in the embedded form and in special materials exactly for artists, which enable the artist in a simpler and quicker manner to contribute to the eternal development by painting pictures. And in this case special forms of materials, special forms, which can be used, will also change depending on the season the way the fashions change, for example.

Brushes for painting;

- There will be most various ones, including brushes, which rub image over and brushes, which create image.

Educational and training materials (excluding equipment)

- This relates to the most various forms of educational and training materials that will be created in accordance with the materials of the Teachings of Grigori Grabovoi, as well as other materials, which are directed toward the eternal development. The materials on the Teachings of Grigori Grabovoi will be distributed first of all.

The licensee with the use of class 16 of trademarks can also obtain rights of use of methods, devices and systems included in the patents for inventions “The Way of Prevention of Catastrophes and Device for its Realization” and “The System of Transfer of Information”.
